Product Growth · Lifecycle, Retention & LTV · Experimentation · Team Leadership

cara.liquanqiu@gmail.com

PROFESSIONAL SUMMARY

1. Product growth leader who owns retention, lifecycle, and LTV end-to-end — from onboarding through long-term engagement — building clear, trustworthy, high-performing digital experiences that support customers across their entire journey.
2. Has led lifecycle, CRM, retention, and experimentation in fast-moving, high-growth environments, translating behavioral data and direct user insight into high-impact onboarding, reactivation, and LTV-expansion initiatives.
3. Builds and leads high-performing, cross-functional teams (lifecycle, CRM, content, design, growth), partners closely with Product and Engineering, and operates as an AI-native leader who builds and ships with Claude Code.
4. Combines a strong analytical and commercial mindset with hands-on execution: establishes testing frameworks, prioritization logic, and reporting standards, and aligns senior stakeholders around the highest-leverage opportunities.

WORK EXPERIENCE

PlawLogic | Head of Growth & Operations | Sep 2025 – Present

Lifecycle, retention & LTV · Experimentation · AI consumer products · 0-to-1

- Owns the growth, lifecycle, and monetization strategy for three early-stage AI products (Nooka, Drama.Land, iLands), reporting directly to the founders, setting the roadmap and KPIs, and owning the revenue and LTV outcomes end-to-end.
- Built the full onboarding-to-paid lifecycle and a stage-by-stage diagnostic framework (sign-up → first project → export → paywall trigger → purchase) that pinpoints where customers drop and which fixes move the needle most.
- Ran three focused experimentation sprints across activation, pricing, and landing-page conversion, cutting customer-experience complaints by 30%, improving gross margin by 10%, and lifting conversion by 20%.
- Owned LTV-expansion levers: designed subscription and credit-pack pricing and paywall-trigger timing from a gross-margin model, and built the attribution layer to decide what to scale — taking Drama.Land to USD 1M ARR in 4 months.
- Built growth tooling through vibe coding with Claude Code (landing pages, lifecycle content, analysis), turning one-off experiments into repeatable, documented playbooks.

Meitu | Head of Innovation Operations Center | Jun 2023 – May 2026

Product Growth & Lifecycle · Team Building · GTM for New Products

- Built and led high-performing, cross-functional AI-native teams (four people per product) across lifecycle, content, growth, and creative, for three products (Vmake, RoboNeo, MVLAND), while personally owning the revenue target.
- Owned the lifecycle and retention motion across CRM/EDM (20% open rate), community engagement (Reddit, Discord), and a tiered creator-rewards program (active → task → publish → revenue-share) that turned engaged users into an owned, repeat-engagement channel generating tens of millions of impressions.
- Established the measurement and experimentation discipline: defined KPIs, forecast results, set budgets, and built reporting frameworks to optimise toward LTV — Meta Day-0 ROAS up to 1.9, influencer channel ~7% paid-conversion vs. sign-up, a Xiaohongshu topic +200% traffic in one month.
- Used behavioral data and personalization to shape engagement: reverse-mined high-value user scenarios from behavior to prioritize the highest-leverage experiences and journeys.
- Supported ecosystem expansion and GTM: reporting to the CPO, delivered product strategy and go-to-market design for new products and platforms (Meitu, KaiPai, the Innovation BU, the Meitu Open Platform), backed by an automated market/competitor monitoring system feeding six business units.

ByteDance | Senior Strategy Manager | Dec 2020 – Jun 2023

Product Growth · AI in Health & Wellness · Investment Management

- Led AI product innovation for TikTok's mental-wellness initiative, reaching 100,000+ users and improving retention — building digital experiences that help people make confident decisions about their wellbeing.
- Managed an RMB 20 million investment fund, leading sourcing, investment, and post-investment management for AI health & safety and cutting-edge medical-research projects.
- Built, from 0 to 1, the onboarding, training, and content-distribution system for charities and NGOs on a philanthropy platform.

New Oriental | Head of Business Analytics | Oct 2019 – Nov 2020

User Growth · Conversion · Behavioral Segmentation

- Orchestrated growth across user, teacher, and sales sides, building a full-funnel performance-evaluation system that lifted conversion rate by 20% and improved customer retention.
- Built a machine-learning user-segmentation model (random forest, 85%+ accuracy) to power personalized targeting and conversion strategies, and optimised budget utilisation to 80% through forecasting.

Alibaba (Ele.me) | Business Analytics Manager | Jan 2019 – Sep 2019

Two-Sided Marketplace · Supply Growth · Retention & Performance

- Drove merchant-side (supply) growth across a two-sided marketplace — acquisition, onboarding, tiered management, and performance evaluation — and managed a RMB 10 million subsidy program across 15+ provinces, increasing merchant count by 4.5% and raising national market share by 12%.

DiDi | Senior Growth Manager | Melbourne / Tokyo / Latin America | Jan 2017 – Dec 2018

International Market Entry · Supply-Side Growth · Operations

- Led market entry and growth across four countries (Australia, New Zealand, Mexico, Japan) and built the Latin American customer-service system from 0 to 1 (COPC certified).
- Increased driver supply by 30% while keeping subsidy 3.5% below competitors; built a supply-side growth-tracking system (GMV, margin, subsidy KPIs).

Accenture | Senior Business Analyst | Apr 2013 – Dec 2016

Market Entry & Growth · Strategic Planning · Digital Transformation

- Led market-entry and expansion projects for enterprise clients (China Post, China Resources), delivering strategic roadmaps and profitability models.

EDUCATION

The University of Melbourne | Master of Information Systems (Minor in Finance) | 2010 – 2012

Huazhong University of Science and Technology | Bachelor of Electronic and Information Engineering | 2006 – 2010

SKILLS & LANGUAGES

Core Competencies: Product Growth · Lifecycle, Retention & LTV · CRM & Onboarding / Reactivation Flows · Experimentation & Prioritization Frameworks · Personalization & Behavioral Insight · Data, Measurement & Commercial Analysis · Cross-Functional Team Leadership · GTM for New Products

AI & Tools: Claude Code (Vibe Coding) · Workflow Automation · Analytics & Dashboards · AI Agent Product Operations · Machine-Learning User Segmentation (Random Forest)

Languages: Chinese (Native) · English (Fluent) · Spanish (Learning)
