Performance Marketing · Multi-Market Paid Acquisition · Creative Testing · AI Automation
cara.liquanqiu@gmail.com

PROFESSIONAL SUMMARY

1. Performance marketer who owns paid acquisition end-to-end across multiple international markets on Google and Meta — campaign setup, budget allocation, daily optimization, QA, and reporting — balancing promotional and evergreen activity to grow while protecting efficiency.
2. Builds structured creative-testing frameworks (hook × angle × format, one variable at a time) and the playbooks, templates, and dashboards that make execution scalable, consistent, and low-error across markets.
3. AI-native operator: uses AI to optimize targeting, bidding, and budget allocation, to generate and iterate creative variants, and to automate cross-market reporting — building the whole workflow end-to-end with Claude Code.
4. Runs growth across China and overseas markets with strong cross-cultural and platform-specific understanding; translates complex multi-platform data into clear, actionable insight; thrives in lean, fast-paced environments.

WORK EXPERIENCE

PlawLogic | Head of Growth & Operations | Sep 2025 – Present

Multi-market paid acquisition · Creative testing · AI automation · 0-to-1

- Owned end-to-end paid acquisition for three subscription AI products across Google (Search + PMax) and Meta — campaign setup, audience and bidding strategy, budget pacing, daily optimization to cost-per-acquisition targets, and QA — taking Drama.Land to USD 1M ARR in 4 months.
- Built and ran a structured creative-testing framework — testing hook × angle × format one variable at a time, validating intent on sign-ups before scaling, killing losers and doubling down on winners weekly — and a clear diagnostic order (ROAS → cost-per-purchase → CTR/ thumb-stop → CVR) to know exactly what to fix.
- Set budgets from an LTV-based payback model, forecast ROI, and reallocated spend across channels to hit efficiency targets — held Meta Day-0 ROAS above 1 and brought CPA down to around \$3.
- Built the automation layer with Claude Code (landing-page generation, AI creative variants, content) and a self-built CMS for SEO micro-tools — turning repetitive setup and one-off experiments into documented, repeatable playbooks and dashboards.

Meitu | Head of Innovation Operations Center | Jun 2023 – May 2026

Multi-Market Paid Growth · Creative Testing at Scale · AI-Native Operations

- Ran multi-market paid acquisition across Google and Meta for three products (Vmake, RoboNeo, MVLAND) spanning 10+ countries, owning budget allocation, pacing, and ROI while personally carrying the revenue target.
- Scaled the creative-testing system across messaging, formats, and audiences (hook × angle × format), feeding winners into an account-matrix content engine; systematically applied learnings to lift baseline performance market by market.
- Built an AI-native pipeline on a Claude Code / OpenClaw stack for data analysis, account-matrix selection and content creation, SEO, landing-page generation, and cross-market reporting — automating repetitive tasks and standardizing execution.
- Established KPIs, forecasting, and measurement frameworks and demonstrated ROI across channels: Meta Day-0 ROAS up to 1.9, Google Day-0 ROAS 0.7, EDM open rate 20%, influencer channel ~7% paid-conversion vs. sign-up, a Xiaohongshu topic +200% traffic in one month.
- Operated across both overseas channels and China content ecosystems (Xiaohongshu, Douyin), applying platform-specific and cross-cultural nuance to each market.

ByteDance | Senior Strategy Manager | Dec 2020 – Jun 2023

Product Growth · AI Innovation · Investment Management

- Led AI product innovation for TikTok's mental-wellness initiative, reaching 100,000+ users and improving retention.
- Managed an RMB 20 million investment fund, leading sourcing, investment, and post-investment management for AI health & safety and cutting-edge medical projects.

New Oriental | Head of Business Analytics | Oct 2019 – Nov 2020

EdTech · User Growth · Data-Driven Acquisition

- Led data-driven acquisition for an edtech business, combining paid advertising with community-led growth across user, teacher, and sales sides, lifting conversion rate by 20%.
- Built a machine-learning user-segmentation model (random forest, 85%+ accuracy) to power precise targeting, and optimized budget utilization to 80% through forecasting and resource allocation.

Alibaba (Ele.me) | Business Analytics Manager | Jan 2019 – Sep 2019

Two-Sided Marketplace · Supply Growth · Budget & Performance

- Drove merchant-side (supply) growth across a two-sided marketplace and managed a RMB 10 million subsidy program across 15+ provinces, increasing merchant count by 4.5% and raising national market share by 12%.

DiDi | Senior Growth Manager | Melbourne / Tokyo / Latin America | Jan 2017 – Dec 2018

International Market Growth · Multi-Market Operations · Localisation

- Led market entry and growth across four countries (Australia, New Zealand, Mexico, Japan) and built the Latin American customer-service system from 0 to 1 (COPC certified).
- Increased driver supply by 30% while keeping subsidy 3.5% below competitors; built a supply-side growth-tracking system (GMV, margin, subsidy KPIs).

Accenture | Senior Business Analyst | Apr 2013 – Dec 2016

Market Entry & Growth · Strategic Planning · Digital Transformation

- Led market-entry and expansion projects for enterprise clients (China Post, China Resources), delivering strategic roadmaps and profitability models.

EDUCATION

The University of Melbourne | Master of Information Systems (Minor in Finance) | 2010 – 2012

Huazhong University of Science and Technology | Bachelor of Electronic and Information Engineering | 2006 – 2010
